+ (+61) 04 103 744 66  
+ 24 / 08 / 1986  
+ Sydney, NSW, Australia

---

*I've skated in the past and landing a trick you've worked hard to accomplish is a one of a kind feeling of pride, happiness and fulfilment. I believe I've found my spot as a programmer in iOS development because the feeling of putting out good code and great finished products is somewhat like the feeling I described above.  
I'm a team player and a responsible hard worker eager to learn more.*

---
